

Our Products

King'sstrip

20 series

- High quality, Sturdy and Economy.
- A special strip extrusion assures the precise size and fit of each strip.
- All fasteners are concealed, adding to the simple beauty of King'sstrip - 20 series. Inserts are removed from the front using a Special Tool.

25 series

- 25 series incorporates all the unique details of 20 series.
- Design Flexibility: Signband Insert Slots allow for slide-in Photopolymer (all patterns or letterings can be raised. It is very suitable for tactile readers.) Metalphoto or AlumaJet (color metalphoto).

Panel series

- Ease of installation and fast delivery.
- Simple, Elegant and Functional.
- All fasteners are concealed, adding to the simple beauty of King'sstrip - Panel series. Inserts are removed from the front using a Suction Cup Tool.
- Design Flexibility: Panel series is interchangeable into 3 styles (wall mounted/wall projected/ceiling mounted), when wall mount & ceiling mount caps are used.
